

SANDVIK UJ640E MOBILE JAW CRUSHER

TECHNICAL SPECIFICATION

The UJ640E is a heavy duty, electrically powered jaw crusher designed for high productivity and low energy consumption. Featuring the CJ615 crusher with large intake and an automated process control system, this machine offers high performance with minimal downtime and has proven itself in the toughest of applications and in all climatic conditions.

KEY BENEFITS

Reliability

- Built for hard and abrasive rock
- Market leading Sandvik CJ615 jaw for strength and high performance
- Wear lined impact zones
- All onboard components are electrically driven giving reliability and minimal maintenance
- Premium quality components for durability

Productivity

- Large intake opening of 1500 x 1070 mm / 59" x 42" for highest rates of production in its class
- Level sensors and step less regulation of feeder for optimized production
- Discharge conveyor width of 1600mm / 63" and adjustable discharge height 3,7-4,8m / 12'-16' to enable massive stockpiling capacity
- A number of sensors at different key locations to ensure a trouble free operation and prevent costly breakdowns

Low cost per tonne due to operation through onboard diesel generator or connection to electrical mains supply

- Choice of jaw plates and settings for a wide range of applications
- Transported in two separate sections, individually self-supported for easy assembly on site, resulting in more uptime and higher productivity
- The unit can work as stand alone or interlocked in a "process train" with other crushing and screening units
- Dual on board interlocking via PLC for optimal performance and operating efficiency, relay as backup

Cost of ownership

Safety

- Quick return on investment and high resale value
- User-friendly control system via PLC from one location and radio remote control as standard.
- Dust suppression spray bars and dust sealed conveyor minimize dust, improving operator and onsite safety
 Minimal maintenance with safe and easy access
- Low emissions due to electrical operation, minimizing environmental impact
- Generator set and fuel tank can be located at ground level for easier service
- LED Floodlights for safe operation 24 hours a day

Support

- Extensive global distributor network
- Operational advice through our process knowledge and expertise

KEY SPECIFICATIONS	UJ640E
Hopper	
Width Length Capacity Rear loading height	3750 mm / 12' 3' 6270 mm / 20' 6" 14 m³ / 18.31 yds³ 6500 mm / 21' 3"
Feeder	
Type Width Length Grizzly length	Sandvik SW1453 1400 mm / 55" 5200 mm / 17' 2 x 1200 mm / 2 x 4'
Crusher	
Type Feed opening CSS range Drive	Sandvik CJ615 jaw 1500 x 1070 mm / 59" x 42" 125 - 300 mm / 5 - 11 3/4" * Electric motor 200 kW / 300 hp 6 pole, 50 Hz, slip-ring type
Discharge conveyor	
Belt width Length Discharge height under drum	1600 mm / 63" 15.2 m / 49' 9" 4100 - 4500 mm / 14 -15' (adjustable)
Natural fines conveyor	
Width Length Discharge height under drum (approx)	800 mm / 31.5" 8000 mm / 26.2' 4400 mm / 14.4'
Power pack

Note. All weights and dimensions are for standard units only

STANDARD SPECIFICATION

Crusher level sensor

Fuel tank volume

Main Voltage

Control voltage

Radio remote control with umbilical cord as back-up

Frequency inverter for the crusher

Automatic lubrication for the jaw

Dust suppression spray system on crusher and discharge

conveyor

Electrical power outlet 125A

Natural fines conveyor with support

Maintenance platforms for service and maintenance

Self-adjusting stabilizing support legs

PLC control system (Relays as backup)

Standard main voltage 400V AC 50Hz

Control voltage is 230V AC and 24V DC

Electric refuelling pump

Light masts, warning beacons, panel light and tracking lights

Tool kit

Diesel engine pre-heater

Rubber lined vibrating grizzly feeder

Heavy duty conveyor with dust covers
